

CITY OF EMORY – STREET WORK

Sweeping all city streets – Friday, June 11, 2010

Street Paving – Week of June 14 – 18, 2010

According to Emory City Administrator, Mike Dunn, several streets or portions of streets in the City of Emory are scheduled to be paved the week of June 14 – 18. County road and bridge crews, working through an interlocal agreement with the city, will be paving South Planters Street, one block of North Street between Ravine and Planters Streets, Santa Fe Street between Quitman and Missouri Streets. Also, two sections of Ravine will be paved. Those sections are between Quitman and Gunter Streets between Forbis Road and Wades Street.

City and county crews ask that homeowners and visitors refrain from parking on the sides of the streets during the paving project.
