ACKNOWLEDGMENTS:

- *I certify under penalty of law that this document and all attachments were prepared under my direction or supervision in accordance with a system designed to assure that qualified personnel properly gather and evaluate the information submitted. Based on my inquiry of the person or persons who manage the system, or those person directly responsible for gathering, the information submitted is, to the best of my knowledge and belief, true, accurate, and complete. I am aware that there are significant penalties for submitting false information, including the possibility of fines and imprisonment for knowing violations.
- *As the PWS Representative, I understand that if any additional service lines are subsequently identified as Lead, Galvanized Requiring Replacement, or Lead Status Unknown, the PWS is required to notify the State within 30 days of identifying the service line (s) and must prepare an updated inventory using Lead Service Line Inventory.
- *As the PWS Representative, I understand that the PWS should maintain fo review any resource, information, or indentification method used for the development of the initial inventory. These records do not need to be submitted to TCEQ but should be available for review.
- *As the PWS representative, I understand that customers with a lead, galvanized requiring replacement, or lead status unknown service lines should be informed within days of completion of initial LSLI and annually thereafter until the service line is replaced.
- *As the PWS representative, I understand that the PWS should provide and updated LSLI in accordance with its tap sampling monitoring period schedule, but no more frequently than annually. The updated LSLI must be submitted within 30 days of the end of each tap sampling period.
